- **Heading**: Sprint 3 Report, Draw a Piece, March 4, 2016.

- **Actions to stop doing**: Everything we are doing seems to be fine.

- **Actions to start doing**: Keep working on bug fixes and make our project presentable.

- **Actions to keep doing**: Keep telling each other about the obstacles we are facing and trying to help one another. Keep giving good descriptions to changes we have made to our files.

- **Work Completed since last Sprint**:

  - Cropping image feature.

  - Private/Public projects completed.

  - Authentication requirements.

  - Version Control and save states.

  - Comments section.

  - Project Thumbnails.

  - Stitching final images together.

- **Work Not Completed**:

  - CSS styling

  - Bug fixes before final presentation.

- **Work completion rate**: We completed a lot of difficult user stories in this sprint. Our product is mostly done besides bug fixes. The ideal work hours seemed to be about 4-7 hours per week for each member since not everyone was able to work daily.
