Draw a Piece Release Plan

We mostly use this document to steer our sprints the direction we saw fit.

The points are associated with how much time we spend on each task. 3-4 meaning really time consuming tasks, 2pts meaning task that seem to be doable but could have unforeseen problems, and 1 pts for straight forward tasks.

Priority User Stories:

1. Get a simple canvas working with basic drawing features. 2pts

2. Setting up skeleton database code. 1.5pts

3. Uploaded an Image onto the canvas. 2pts

4. Be able to download the contents of the canvas. 3pts

5. Associate pictures to projects 2pts

6. Version control and save states. 3pts

7. Picture cropping to match canvas without issues. 3 pts

8. A project interface which lets us access multiple canvases. 3pts

9. Making sure project is properly saved through version control and save states. 3pts

10. Properly associating images with the corresponding images. 2 pts

11. Being able to save the project image properly with all the images stitched together. 4pts

12. Private and public projects feature. 2pts

Secondary User Stories:

1. CSS styling. 1.5 pts

2. Comments section 1.5pts
